List of participants X
Josef Donner, in memoriam XVII

Rotifer study as a way of life
by W. T. Edmondson 1

PART ONE: ECOLOGY

Food
Food limitation and body size in the life cycles of planktonic rotifers and cladocerans
by A. Duncan 11
Is food availability the main factor controlling the abundance of *Euchlanis dilatata lucksiana* Hauer in a shallow, hypertrophic lake?
by J. Ejsmont-Karabin, R. D. Gulati and J. Rooth 29
Influence of cyanobacterial diet on *Asplanchna* predation risk in *Brachionus calyciflorus*
by P. L. Starkweather and E. J. Walsh 35
Nutritional effect of freshwater Chlorella on growth of the rotifer *Brachionus plicatilis*
by K. Hirayama, I. Maruyama and T. Maeda 39
Life history characteristics of *Brachionus plicatilis* (rotifera) fed different algae
by J. Korstad, Y. Olsen and O. Vadstein 43
Feeding kinetics of *Brachionus plicatilis* fed *Isochrysis galbana*
by J. Korstad, O. Vadstein and Y. Olsen 51

Competition
Epizoic and parasitic rotifers
by L. May 59
Interrelations of rotifers with predatory and herbivorous Cladocera: a review of Russian works
by L. K. Matveeva 69
Competitive interactions between the rotifer *Synchaeta oblonga* and the cladoceran *Scapholeberis kingi* Sars
by J. J. Gilbert 75

Autoecology
Salinity and temperature influence in rotifer life history characteristics
by M. R. Miracle and M. Serra 81
Empirical evidence for a complex diurnal movement in *Hexarthra bulgarica* from an oligotrophic high mountain lake (La Caldera, Spain)
by P. Carrillo, L. Cruz-Pizarro and R. Morales-Baquero 103

Morphological variation in *Kellicottia longispina*
by W. T. Edmondson and A. H. Litt 109
Morphological structure and functional patterns of *Keratella cochlearis* (Gosse) populations in stratified lakes
by G. A. Galkovskaya and I. F. Mityanina 119
The development of *Hexarthra* spp. in a shallow alkaline lake
by A. Herzig and W. Koste 129
On choice of substrate and habitat in brachionid rotifers
by B. Pejler and B. Bērziņš 137
Temporal analysis of clonal structure in a moss bdelloid population
by C. Ricci, M. Pagani and A. M. Bolzern 145
Horizontal distribution of the plankton rotifers *Keratella cochlearis* (Bory de St Vincent) and *Polyarthra vulgaris* (Carlin) in a small eutrophic lake
by A. P. Saunders-Davies 153
Oviposition behavior of the littoral rotifer *Euchlanis dilatata*
by E. J. Walsh 157
Developmental times of *Synchaeta oblonga* eggs from the Danube (Austria)
by W. Zoufal 163

Communities
Community structure and coexistence of the rotifers of an artificial crater lake
by G. Bogaert and H. J. Dumont 167
The rotifer communities of acid-stressed lakes of Maine
by M. T. Brett 181
Composition and distributional patterns in arctic rotifers
by R. Chengalath and W. Koste 191
Abundance and diversity of planktonic rotifers in the Po River
by I. Ferrari, A. Farabegoli and R. Mazzoni 201
Rotifer distribution in relation to temperature and oxygen content
by E. Mikschi 209
Patterns in the composition of the rotifer communities from high mountain lakes and ponds in Sierra Nevada (Spain)
by R. Morales-Baquero, L. Cruz-Pizarro and P. Carrillo 215
Rotifer associations of some wetlands in Ontario, Canada
by T. Nogrady 223
Opportunist rotifers: colonising species of young ponds in Surrey, England
by R. M. Pontin 229
Percentage of rotifers in spring zooplankton in lakes of different trophy
by S. Radwan and B. Popiołek 235
Tasmania revisited: rotifer communities and habitat heterogeneity
by R. J. Shiel, W. Koste and L. W. Tan 239
Occurrence of Rotifera in the field under natural and intentionally-changed conditions. II. Lake Numasawa
by M. Sudzuki, T. Matsumoto and K. Narita 247

PART TWO: TAXONOMY AND MORPHOLOGY

The skeletal muscles of rotifers and their innervation
by P. Clément and J. Amsellem 255
Classical taxonomy and modern methodology
by W. Koste and R. J. Shiel 279
Mastax morphology under SEM and its usefulness in reconstructing rotifer phylogeny and systematics
by G. I. Markevich and L. A. Kutikova 285
Problems in taxonomy of rotifers, exemplified by the *Filinia longiseta-terminalis* complex
by A. Ruttner-Kolisko 291
Systematics, reproductive isolation and species boundaries in monogonont rotifers
by T. W. Snell 299
Phylogenetic relationships within phylum Rotifera: orders and genus *Notholca*
by R. L. Wallace and R. A. Colburn 311
A re-appraisal of two members of the genus *Notholca* from the Andes, with a note on the fine structure of the lorica of *N. foliacea* (Ehrenberg)
by E. D. Hollowday and C. G. Hussey 319

PART THREE: PHYSIOLOGY

Protein patterns in rotifers: the timing of aging
by M. J. Carmona, M. Serra and M. R. Miracle 325
Brachionus plicatilis tolerance to low oxygen concentrations
by A. Esparcia, M. R. Miracle and M. Serra 331
Analysis of protein, carbohydrate and lipid in rotifers
C. Guisande and L. Serrano 339
A laboratory study of phosphorus and nitrogen excretion of *Euchlanis dilatata lucksiana*
by R. D. Gulati, J. Ejsmont-Karabin, J. Rooth and K. Siewertsen 347
A new method to estimate individual dry weights of rotifers
by H.-R. Pauli 355
Temperature aspects of ecological bioenergetics in *Brachionus angularis* (Rotatoria)
by N. Walz, T. Gschloessl and U. Hartmann 363
Biomass and elemental composition (C.H.N.) of the rotifer *Brachionus plicatilis* cultured as larval food
by M. Yúfera and E. Pascual 371

PART FOUR: GENETICS

Molecular genetics of rotifers: preliminary restriction mapping of the mitochondrial genome of *Brachionus plicatilis*
by C. E. King 375
Size variation in *Brachionus plicatilis* resting eggs
by L. Serrano, M. Serra and M. R. Miracle 381

PART FIVE: AQUACULTURE

Rotifers as food in aquaculture
by E. Lubzens, A. Tandler and G. Minkoff 387
Nitrogen flow through a *Brachionus/Chlorella* mass culture system
by W. D. Nagata 401
Kinetics of n-3 fatty acids in *Brachionus plicatilis* and changes in the food supply
by Y. Olsen, J. Rodriguez Rainuzzo, O. Vadstein and A. Jensen 409
Effect of incubation and preservation on resting egg hatching and mixis in the derived clones of the rotifer *Brachionus plicatilis*
by A. Hagiwara and A. Hino 415
Intensive rotifer cultures using chemostats
by C. M. James and T. Abu Rezeq 423
